Here's the affidavit again - THANKS, THANKS! THANKS!

Dear Paul:

Thanks for getting back to me about the attached affidavit so promptly.

As we discussed by telephone this morning, I have enclosed a copy of the affidavit revised as you requested. Please copy it on "real" paper, have Richard Burns sign it, have it notarized, and return it to me by mail at the above address.

In addition, if, without too much hassle, you can dig up the letter or document that granted the LGCSC tax exempt status, please send me a copy of that as well so I can attach it to my court papers.

Finally, I would appreciate receiving a copy of the LGCSC's application for tax exempt status as well, again, if it is not too difficult to find. The reason I would like to have a copy is because one of the defenses the city has raised to our lawsuit is that the GAGV checked off that it was an "educational" organization on page 1 of the application, and since it is not an "educational" organization, it cannot be granted tax exempt status. Our position is even if the GAGV check off the wrong box, doing so is not a basis to deny tax exempt status to the GAGV. Nevertheless, it would be helpful to see what boxes the LGCSC checked off on its application.

To give you an idea what the application looks like, I have enclosed a copy of the GAGV's application, which is a ~~seven~~ 8-page state form. I assume the LGCSC submitted a form application as well.

Again, thanks very much for all your help. If you have any questions, please call me at (716) 454-6500 during the day, 256-0508 at night.

Very truly yours,

Ellen Yacknin
